

Formulary Guide

February 2019

Horizon NJ Health

Please refer to this guide when prescribing for Horizon NJ Health members. This guide does not contain a complete list of drugs, rather it lists the preferred drugs within the most commonly prescribed therapeutic categories.

The medications included in the formulary are reviewed and approved by the Pharmacy and Therapeutics Committee, which includes practicing Physicians and Pharmacists from the Horizon NJ Health Provider community. The goal of the formulary is to provide cost-effective pharmacotherapy based on prospective, concurrent and retrospective review of medication therapies and utilization.

In order to request prior authorization or for a hard copy of the formulary, please contact the Horizon NJ Health Pharmacy Department at **1-800-682-9094** and be prepared to provide relevant clinical information that supports the medical necessity of the requested medication.

Note that many over-the-counter products are covered with a prescription and should be considered first-line therapy when appropriate. This formulary as well as a listing of limitations, prior authorization criteria, generic substitution procedures, step therapy procedures and other pharmaceutical management methods are available online at horizonNJhealth.com.

Please note, oral oncology drugs have 14 day starter fills when applicable.

Please note that Horizon NJ Health maximum days supply limit is 30 days.
